About Me

I hold a bachelor's degree in Mathematics and Computer Science from Istanbul Kültür University. Starting as a frontend intern, I found my growth potential as a Junior Backend Developer at a major software company. Proficient in PHP, Laravel, Livewire, Tailwind, React, and JavaScript, I actively contribute to web application, B2B, and e-commerce projects.

I consider myself a strong team player, excelling in interpersonal relationships. I am skilled at understanding client requirements in meetings and translating them into code for effective project implementation.

Work Experiences

Frontend Developer Intern

Motor Aşın Inc., is a company engaged in the import and export of automobile, truck, and trailer spare parts.

June 2022 - July 2022 · 2 months

- I gained experience in a corporate environment and enhanced my interpersonal skills.
- I acquired database experience, learned SQL, and gained IT expertise.

Junior Backend Developer

Ketencek IT is a global company that provides software services to various industries. It specializes in B2B, E-COMMERCE, ERP, CRM, and mobile application web services.

December 2022 - December 2023 · 1 Year

- During this period, I worked as a Junior Laravel Developer on B2B projects, actively participating in database systems and backend tasks.
- Collaborating with the team, I developed efficient backend solutions for B2B projects and implemented them.
- I assisted in designing and optimizing database structures, ensuring data integrity and efficient query performance.
- I participated in meetings where customer requests and requirements were gathered, enhancing customer relationships.
